

GLOBAL LEADERS

an academic and athletic
leadership program
created by

Who we are

The Global Leaders (GL) program is designed to empower student-athletes (grades 5-12) to excel academically and athletically with resiliency, character, virtues, and the discipline to become stronger self-driven, confident leaders.

The Four Key Elements of GL:

Training

Service & Community

College Prep

Leadership

What if a program could offer ...
a solution for each young student-athlete to attend college?

What if a program guided and inspired...
the possibility that each student-athlete owns their responsibility?

Global Leaders is the answer - and is THE PROGRAM for your child.

Our participants work harder, listening to the coaches instruction; playing the game the right way on the court, the field, the community, and in the classroom.

The workout for a Global Leader is their work ethic, defined by becoming the understanding (also known as the "U") within one's self. Corrective input is embodied around positive motivation.

Global Leaders aligns its services to individual outcomes; pathways to stronger comprehension; management of academic planning; cognitive development to enhance athletics; and a **100% guarantee each student athlete will raise their level of performance in sports and in the classroom**. Developing independent strategies is our process to owning ones understanding.

Global Leaders Strengthens the Individual, Improving Their Mindset - One Step At A Time.

Training

ATTITUDE

Physically train the mindset. Inspire the mental strength to persevere. Transformative learning model. Interactive cognitive approach.

APTITUDE

Regulate focus and critical thinking. Break down the wall of fear. Increase awareness. Conquer the mental roadblocks.

ALTITUDE

Raise mental and physical thresholds. Become a higher threshold achiever. Raise confidence while processing at speed 100.

Our Training Programs

Providing cutting edge training and curriculum design, Conditioned Minds continues to position itself around the country as a leader in student athletic character development.

Youth are continuously challenged physically while mentally developing leadership characteristics and emotionally strengthening decision making skills. These same learned skills help physically train the mindset, inspire the mental strength to persevere, create an interactive cognitive approach, regulate focus and critical thinking, conquer the mental roadblock, increase athletic court and field awareness, and raise mental and physical thresholds.

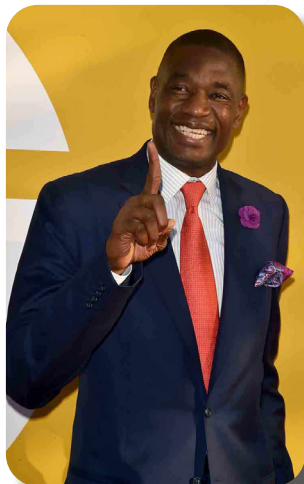

Through the creation of an experiential motivational and interactive work environment, our vision is to ensure participants gain the knowledge and motivation to achieve their desired goals.

Basketball – Performance Training – Volleyball - Soccer

Community Development w/ NBA Star, Hall of Famer & Humanitarian - Dikembe Mutombo

Aligning the values of Global Leaders, Dikembe's vision to help others expands worldwide. From Africa to Israel, Thailand to Dubai, or the United States to a global platform, we are proud to lean on Dikembe's understanding of bringing the world together.

Athletics plays such a crucial role in overall child development. Through empathy and understanding, the student athletes in Conditioned Minds Global Leaders are designing their platform of leadership, growing opportunities to continue on into post secondary education, while using sports as a tool to make change.

Conditioned Minds Global Leaders program is thrilled to have Dikembe Mutombo as the face of our community leadership excellence.

Community Development

A mission to reinvent, rebuild, and revive relationships as they deal directly with youth and communities.

Community development includes a variety of areas supporting local, national, and worldwide initiatives.

Each participant is involved in annual causes and effort projects including:

- a community project
- a national cause
- an enlightenment of the world project

The most powerful lesson is knowledge of and a love of service. Participants do not plan their involvement in the community solely by how they see things, but rather by their interactive spirit to see a different end result.

MAKING A DIFFERENCE IN THE COMMUNITY

Tap into the community - allowing talents, skills and abilities to raise awareness.

STANDING UP FOR A NATIONAL CAUSE

Reconnect a bigger cause by connecting efforts within communities, governments, and businesses.

ENLIGHTENMENT ON THE WORLD

Using the love of sports and volunteer services to promote oneness on a worldwide level.

100% of GL participants secured a college scholarship (athletics, academics, or community service).

College Prep

A
PROFESSIONAL PATHWAY

A MODEL FOR SUCCESSFUL
LEADERSHIP HABITS

A STRONGER RELATIONSHIP
THROUGH PARENTAL MENTORSHIP

Through Global Leaders, you will **LEARN...**

Defining Direction

5th - 9th Grade

Transformative Learning

10th Grade

Decision Making

11th Grade

Progressive Leadership

12th Grade

Leadership Focus

Through our Leadership Retreats, Workshops & Seminars, Global Leaders participants will attain advanced educational skills in a framework that empowers them! We have created age appropriate programs for educational-based success:

8 th Grade	PREMISE BEHIND MISTAKES
9 th Grade	FIGURING THINGS OUT
10 th Grade	LEARNING ABILITY
11 th Grade	DECISION MAKING
12 th Grade	THE COMPLETE YOU

Leadership

Our intake process is carefully crafted to screen all applicants appropriately.

3.0 GPA or Higher During The Academic School Year

Active Sport Participant in School or Club Team

Commitment For Success

Our Global Leaders Program does not accept every applicant. Our intake allows us to screen appropriately those who wish to be a part of our program. We have a 100% graduation rate with 100% of our participants securing a college scholarship whether for athletics, academics, or community service.

**We look forward to working with your family
to help your student reach new heights
academically, athletically and personally.**

CMF, Inc. is a tax-exempt nonprofit 501c3 organization that services the silent callings for leadership enhancement surrounding how youth prepare athletically, execute academically, and self-assess emotionally. CMF uses a comprehensive interactive and supportive experiential approach to train young athletes cognitive behavior by helping today's generation regulate complex traits such as attention, risk assessments, decision making, and social skills; overall becoming more focused leaders.
